

Keynote Speaker: Professor Katharine Hayhoe

Katharine Hayhoe is an atmospheric scientist who studies climate change, one of the most pressing issues facing humanity today. But Katharine may be best-known to many people because of how she's bridging the broad, deep gap between scientists and Christians— work she does in part because she's a Christian herself. She's been named by Christianity Today as one of their 50 Women to Watch and currently hosts the PBS digital series, *Global Weirding: Climate, Politics and Religion*.
